PROFESSIONAL PROFILE

I am a Full Stack Developer with experience in the technology and logistics sectors, passionate about transforming complex processes into clear and efficient software solutions. I work with Angular, React, Node.js, .NET, Python, SQL Server and MySQL, on both frontend and backend. I also work in QA Automation, ensuring software quality at every stage of development. Throughout my career I managed critical inventory and supply chain systems for more than 15 key suppliers, achieving over 95% compliance with ISO 9002 standards and reducing stock discrepancies through data analysis and custom reporting. TECH STACK

Frontend	React.js, Angular, HTML5, CSS3, JavaScript (ES6+), TypeScript
Backend	Node.js, Java (Eclipse / NetBeans), C#, .NET (WinForms, WebA
Databases	SQL Server 2005/2008, MySQL, relational databases
Cloud & DevOps	AWS, Docker, Kubernetes, CI/CD
QA & Testing	QA Automation, unit testing, Selenium
Languages	Java, C#, JavaScript, TypeScript, Python
Methodologies	Scrum / Agile, best practices, Clean Code
Tools	Git, GitHub, VS Code, Visual Studio, IntelliJ

WORK EXPERIENCE

Cencosud S.A. 1994 – 2025

Logistics Supervisor & Inventory Management

- **Comprehensive management** of the supply chain for more than 15 key suppliers (Quilmes, Embotelladora del Atlántico, meatpacking plants, etc.), coordinating reception, quality control and storage of large volumes of merchandise weekly.
- **Analysis and resolution** of critical stock incidents, reducing inventory discrepancies through custom report generation and rigorous data analysis extracted from internal systems.
- **Supervision of critical data integrity** of product data and inventory processes, ensuring over 95% compliance with ISO 9002 quality standards at reception.
- **Identification of bottlenecks** in logistics processes, proposing and implementing improvements that optimized workflows and operational

EDUCATION

Higher Technician in Programming

UTN — Facultad Regional Córdoba •
Graduated 2012

B.Sc. in Information Systems Engineering

UTN — Facultad Regional Córdoba
(Incomplete)

CERTIFICATIONS

Full Stack & Web Development

- **Full Stack Developer Professional**
— UTN (2021)
- **React JS Development**
— UTN (2020)
- **Angular Development**
— UTN (2020)
- **Node.js Development**
— UTN (2021)

Other Technical Courses

- **Python (Fundamentals & Practice)**
— Daxus Latam (2025)
- **QA Automation**
— Santex Academy (2025)
- **Senior .NET Programming**
— Becas Control F (2011)
- **Java Developer**
— Becas Control F (2014)
- **Java Developer**
— EmplEarTec / CESSI (2014)
- **Prog. III: .NET & SQL Server**
— UTN (2006)

LANGUAGES

Spanish — Native
English — Intermediate (reading & writing)

SOFT SKILLS

- Results-oriented and detail-focused
- Continuous autonomous learning
- Teamwork and effective communication
- Problem-solving under pressure

FEATURED PROJECTS

Academic and Practice Projects — UTN & Certified Courses

- Desktop application development in C# with WinForms connected to SQL Server (full CRUD).
- RESTful APIs with .NET WebAPI and consumption from Angular and React clients.
- SPA web applications with React.js including state management, routing and HTTP services.
- Backend with Node.js + Express: JWT authentication, middlewares and database connection.
- Automation scripts and data analysis with Python (pandas, numpy).
- Automated test cases using QA Automation tools (Santex Academy).
